

# BioVid Heat Pain Database Agreement

By signing this document, I agree on the following terms of use. With “database”, we denote the BioVid Heat Pain Database, any part of it, or any manipulation of the data.

- (1) The database will be used for academic research only. Any commercial use is prohibited.
- (2) The database will not be distributed to parties that are not listed in this agreement. The same applies to the login data that you will receive to access the download area.
- (3) The database, especially the videos and images, will not be displayed, or made accessible in any way, in public space (also including internet, conference presentations and proceedings, or other media).
- (4) As the only exception to (3), some images may be used in scientific publications to illustrate research results, but this only applies to subjects who gave consent to have their data used for this purpose. The following subjects did **NOT** give that consent and **cannot** be used:

071709\_w\_23, 072609\_w\_23, 073114\_m\_25, 081009\_w\_26, 091909\_w\_46,  
092014\_m\_56, 092808\_m\_51, 101014\_w\_43, 101216\_m\_40, 101809\_m\_59,  
102309\_m\_61, 102316\_w\_50, 102615\_w\_36

Images of *other subjects* may be used for the above-mentioned purpose.

- (5) Each publication that reports on any usage of the database will cite at least one of the following papers, which describe the database in detail:

Philipp Werner, Ayoub Al-Hamadi, Robert Niese, Steffen Walter, Sascha Gruss, Harald C. Traue,  
*“Towards Pain Monitoring: Facial Expression, Head Pose, a new Database, an Automatic System  
and Remaining Challenges”*, Proc. British Machine Vision Conference, 2013.

Steffen Walter, Philipp Werner, Sascha Gruss, Harald C. Traue, Ayoub Al-Hamadi, et al.,  
*“The BioVid Heat Pain Database: Data for the Advancement and Systematic Validation of an  
Automated Pain Recognition System”*, Proc. IEEE Int’l Conf. on Cybernetics, 2013.

- (6) The database comes without any warranty. The universities of Magdeburg and Ulm are not responsible for any damage caused by the use of the database.
- (7) The database is available for research to broaden knowledge about pain, to improve pain assessment based on behavioral and biomedical response, or to advance basic methods that directly contribute to one of the other goals. Please describe how your planned research addresses at least one of these goals.
